

## Call for Tutorials

The I<sup>2</sup>MTC 2021 Conference will provide a rich forum for the dissemination of the latest research and ideas in a wide range of instrumentation and measurement technology areas. As the flagship conference of the IEEE Instrumentation and Measurement Society the conference will offer delegates the opportunity to further enhance their knowledge and understanding of a range of topics in instrumentation and measurement. This will be achieved by delegates receiving instruction from internationally recognized experts who will deliver Tutorials on a range of topics in Instrumentation and Measurement.

Proposals are now being sought from topic experts to deliver Tutorials during the I<sup>2</sup>MTC 2021 Conference. All proposals received will be reviewed by the Tutorial Co-Chairs of the conference.

### Guidelines for Tutorial Proposers

The Tutorials should provide the delegates with the opportunity to enhance their knowledge of a topic related to Instrumentation and Measurement practice and technologies. Delegates attending the tutorials are expected to be qualified with the minimum of an undergraduate degree in a relevant area of engineering or science. The list below presents the topics of coverage of the conference, and Tutorials can cover any of the topics below. Please note that this is not an exhaustive list. Tutorials can be proposed on topics not listed below, so long as there is a clear connection to the fields of Instrumentation and Measurement.

#### Topics for IEEE I<sup>2</sup>MTC 2021 include

- Measurement in Medical, Biomedical and Healthcare Systems
- Micro- and Nanotechnology for Instrumentation and Measurement
- Advances in Measurement Theory and Metrology
- Data Acquisition Systems
- Real - time Measurement Systems
- Optical and Fibre Optic Measurement Systems
- Image Processing for Measurement
- Signal Processing for Measurement
- Big Data in Metrology
- Sensors and Transducers

- Measurement Systems for Robotics
- Measurement for Industry 4.0
- Measurement for Advanced Manufacturing
- Measurement for the Energy and Power Industry
- Measurement in Environmental Monitoring
- Measurement in Agriculture, Food Production and Food Safety
- Measurement for the Automotive and Transportation Industry
- Measurement in Aerospace and Space Systems
- Circuits and Embedded Systems for Measurement
- Measurement for Communications and IoT
- Measurement for Non-Destructive Testing and Evaluation
- Measurement for Physical and Electromagnetic Quantities
- Measurement for Chemical and Biological Quantities
- Measurement for Renewable Energy Systems
- Measurement for the Oil and Gas Industry

## Tutorial Proposal Format

**Tutorial proposals should have a maximum of 4 pages. Proposals should address all of the sub-headings below:**

1. Title of the tutorial
2. Abstract (200 words maximum) to publicize the tutorial on the website
3. Length of the tutorial: One time slot (1h 30 min), Two time slots (3 h)
4. Names, addresses, and a short biography (up to 200 words) of each instructor(s)
5. A description of the technical issues that the tutorial will address, emphasizing its significance and timeliness
6. An outline of the tutorial content
7. Planned format of the tutorial, such as lecture or hands-on
8. Where appropriate, a description of past versions of the tutorial, including number of attendees, etc.

## Tutorial Proposal Submission Process

Proposers are invited to submit their Tutorial proposal using the Tutorial Proposals track of the I<sup>2</sup>MTC 2021 Conference Paper Submission system. ***As back-up, please also submit your proposals by e-mail to the Tutorial Co-Chairs.***

## Tutorial Proposal Timeline

**Deadline for Submission of Tutorial Proposal:** December 14, 2020

**Accept/Reject Notification:** January 29, 2021

**Submission of Final Presentation:** March 15, 2021

## Tutorial Co-Chairs

Please contact the Tutorial Co-Chairs if there are any questions:

Sabrina Grassini, Politecnico di Torino, Italy ([Sabrina.grassini@polito.it](mailto:Sabrina.grassini@polito.it))

Kurt Barbé, Vrije Universiteit Brussel, Belgium ([kbarbe@vub.ac.be](mailto:kbarbe@vub.ac.be))

## General Information

General information about the I<sup>2</sup>MTC 2021 conference can be found at <https://i2mtc2021.ieee-ims.org>.

Please direct any general queries relating to the conference to Laura LeBlanc ([lleblanc@conferencecatalysts.com](mailto:lleblanc@conferencecatalysts.com))
